TO WHOM IT MAY CONCERN

This is to certify that **Mr. Farhaan Beeharry** has been on internship at Navigation and Geocoding Technologies Ltd. as **Associate Software Engineer Intern** from the 4th May 2020 till 31st August 2020.

During his stay with Naveo, he has been part of the development team and worked on Software Development Cycles and IoT on the Naveo One System. He demonstrated the following skills:

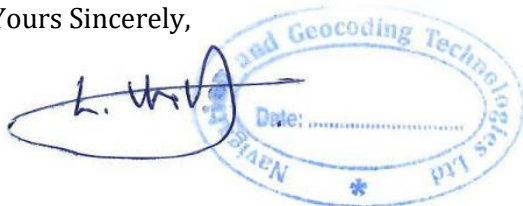

- Showed interest and adaptability in learning new technologies.
- Ability to work under pressure in a team mode.

He has been working on application development as per below:

- Built a mobile application (front end + back end) using Flutter:
 - Local database (SQL)
 - Use of Api to transfer data (api manipulation)
 - Use of JSON
 - Offline feature
 - Autosync when internet is available
 - Use of leaflet maps (custom markers, routes, polygons and polylines)
 - Notifications using Firebase
 - Signed the application
 - Uploaded to playstore
 - Tested on both Android and iOS

We wish him all the best in his career and feel free to contact us for any additional information.

Yours Sincerely,

Vishant Unathras
General Manager – Projects and Operations
Navigation and Geocoding Technologies Ltd.
